

# Appendix I Listing of Gas Turbine Engines by Aircraft - Archived 6/2007

This appendix provides a listing of aircraft arranged alphabetically by manufacturer and model, and cross-referenced with their respective gas turbine engines. Only those aircraft for which a report is carried in *Aircraft Forecast, Book One*, are included. The number of engines per aircraft is supplied, along with the type of engine.

Engine type coding is as follows:

ATF	Augmented Turbofan
ATJ	Augmented Turbojet
PF	Propfan
TF	Turbofan
TJ	Turbojet
TP	Turboprop
TS	Turboshaft
