## TPS-79

### Outlook

- The TPS-79 is a transportable, 3-D, mid-range air surveillance radar manufactured by Lockheed Martin
- No production is forecast
- Barring further activity, this report will be archived in October 2013

### Orientation

**Description.** The TPS-79 is a transportable, 3-D, mid-range air surveillance radar manufactured by Lockheed Martin.

**Sponsor**

Lockheed Martin Mission Systems & Sensors  
Syracuse, NY 13221-4840  
United States  
Tel: + 1 (315) 456-1990  
Web Site:  
<http://www.lockheedmartin.com/ms2/index.html>

**Status.** Available for sale.

**Application.** Air surveillance.

**Price Range.** The average cost of a single TPS-79 radar is \$10 million. This figure is highly speculative, as no official pricing information has been released.

## TPS-79

## Technical Data

	<b>Metric</b>	<b>U.S.</b>
Instrumental Range	111 km	60 nm
Peak Power	11 KW	11 KW
Pulsewidth	5 usec-120 usec	5 usec-120 usec
MTBF	1,200 hours	1,200 hours

The TPS-79 is a modern solid-state commercial off-the-shelf radar that provides 3-D medium-range capability. The radar operates in the S-band and performs well in high-clutter environments.

The TPS-79 can be transported by a HMMWV, a C-130, a CH-53, or a cargo ship. The system can be set up in about 45 minutes.

## Program Review

On March 11, 2008, Lockheed Martin announced that it had signed a contract with Romania's Ministry of Defense to coproduce 17 TPS-79 radar systems. Under this contract, Lockheed Martin is building the radar components and subassemblies for these systems at its

Syracuse, New York, facility. A Romanian company, UTI Systems SA, will provide additional components, and its employees will participate in radar integration and testing in both Syracuse and Romania.

## Contracts/Orders & Options

---

<u>Contractor</u>	<u>Award (\$ millions)</u>	<u>Date/Description</u>
Lockheed Martin	Unknown	Mar 2008 – Contract from Romanian Ministry of Defense for the coproduction of 17 TPS-79 radar systems.

## Timetable

---

<u>Month</u>	<u>Year</u>	<u>Major Development</u>
	2002	Romania's Ministry of Defense awards Lockheed Martin a contract to produce two prototype TPS-79 radar systems
Mar	2008	Lockheed Martin signs a contract with Romania's MoD to coproduce 17 TPS-79 radar systems for Romania

## Worldwide Distribution/Inventories

---

Forecast International believes that **Romania** is the only country to have procured the TPS-79.

## Forecast Rationale

The TPS-79 is a transportable, 3-D, mid-range air surveillance radar manufactured by Lockheed Martin.

Lockheed had signed a contract to produce the TPS-79 for Romania.

The last publicly available information regarding the TPS-79 radar was a March 2008 announcement that

Barring further activity, this report will be archived in October 2013.
